

Dr. Cristina España, is known for her fresh approach to injectables and close attention to details. With a main career in surgical medicine and multiple certifications in the field of Antiaging, non-invasive Aesthetic Medicine, injectables and laser, she has become specialized in giving balanced and harmonious results to each client; her most acclaimed procedures being lip fillers and full face contour and lifting; commonly known as “the top model look”.

Dr. Cristina is passionate about letting others know about the benefits of having an adequate application of fillers, as well as helping others achieve the look they desire; one that makes them feel more confident and true to their personal style.
